Comments: To whom it may concern,

We have had the opportunity to visit this area many times and it would be devastating to have this turned into a commercial area built by some company looking to make the almighty dollar and not in the scenic area it is. It would not promote the beauty that Holland lake has with its wild life, trees and gorgeous water and the falls!! We absolutely vote against another place being destroyed for some corporation that has only one thing to get out of this and it surely isn't enjoyment of the GREAT MONTANA OUTDOORS!
