Comments: Hello. We have been enjoying the pristine beauty of Holland lake for many years. It is one of the few lakes left with nice beaches and decent public access for all to enjoy. This is a very small lake and the addition of dozens more tourists is assuredly going to have an impact on the environment. The proposed expansion will take this away from people who don't have the money to stay at the lodge. I oppose the expansion.

Thank you for your consideration.

Natalya
