Comments: Hello. I am so thrilled to write on behalf of Holland Lake. An absolute gem of a public space! I delight in spending days on the water. Hammocking amongst the trees by the lake and watching the wilderness speak unto itself. It seems to me a real shame to add privatized infrastructure to a place like that. Furthermore, I have lived in a home owned by this landlord in Missoula. Christian never responds to requests from tenants about the status of this house. For multiple years it has suffered from terrible plumbing issues, we simply would never get responses on from the supposed caretaker of this property. It seems to me this landlord only really cares if there is a profit to be made and I think that would likely play a big role in how he would care for the wonderful landscape that is Holland lake! I urge you not to let the lodge expand and take over what is a natural beauty beloved by all!
