Comments: I am against the Holland Lake Expansion Project. I think this project would thoroughly and permanently ruin the atmosphere of Holland lake that long time guests and residents have come to love dearly. The addition of 26 cabins and a guest lodge, turning Holland Lake into a destination guest resort, would crowd and over run this secluded and quiet getaway lake. This lake can not handle the addition and constant stream of guests this expansion project is aiming for, while maintaining its current draw and charm.

My family has been coming to Holland lake every year for over 30 years for a family reunion. Having the relaxing, quiet, calm, and peaceful atmosphere ruined by a crowded resort would absolutely break my heart.
