Comments: Holland Lake Lodge is known as a special, quaint getaway for many Montanans. Many people who cherish this lake and the lodge have had residences in the area for decades. Those of us who grew up knowing it as a local spot will no longer have that special feeling going to Holland lodge if it turns into a large resort. We want to keep these areas of Montana special and homey. Please do not destroy the atmosphere and comfort of this beautiful lodge by making it a large commercial property. We want people to care for that area because it's special to them rather than using it as a profit enhancement which would make it too busy and unaffordable for Montana residents.
