Comments: I have lived in Montana since 1983 and frequent Holland Lake on multiple occasions every year. The Holland Lake Lodge has the character, atmosphere, and ambiance of the true Montana we Montanans appreciate and treasure. Developing Holland Lake Lodge (based on proposed plans) would negatively impact the Holland Lake experience for all except those wealthy enough to stay in one of the 50 cabins, new (larger) lodge, and park in the over 100 (likely) paved parking spots. The USFS is all about multi-use land for all, but the proposal for Holland Lake Lodge negatively impacts other users including hikers, boaters, campers, horse packers, birdwatchers, swimmers, fisherman, backpackers, and trail runners. The peace and quiet and historical beauty of Holland Lake is threatened. Let's not make Holland Lake into a Big Sky, Whitefish, Paws Up development with a revenue at all cost philosophy. Update the current structures and keep it simple. It's Montana!
