Comments: This is not protection of natural resources nor what the people actually living in the Flathead valley want. I love Holland lake for the scenery and solitude it already provides , as do many of the people that are lucky to call this state home. How does a two story lodge, hundred car parking lot and twenty new cabins add to nature when all that natural beauty is already there? Holland Lake should be part of Montana that respects both its history and it's natural wilderness. This plan is a terrible exploitation that will push out everything and everyone that appreciates Holland Lake for what it is now and should remain to be.

I do not support this project.
