First name: Lane

Last name: Chapman

Organization:

Title:

Comments: Keep Holland Lake as it is!! It is already overcrowded during the summer as is, we don't need it to be even more of a tourist attraction. Nor do we need the environmental impacts that this kind of project would cause and displacing animal habitats. No local wants this. All this project will do is bring in more outside people making Montana even more unaffordable. Please leave the natural spaces alone and please consider the community's views on this over dollar signs.
