Comments: In the 26 years I have lived in Missoula, the best lake experience my family has had has been at Holland Lake. It is such a beautiful, unique experience. And the lack of development was the driving force behind our love for the lake. Bordering the wilderness was an added bonus. I loved it so much I have brought family from the east coast to stay at the lodge for a unique Montana experience. It would be good to do some updates to the lodge and the cabins, but this over the top plan will change the character of the lack, and the entire area, in a sad way. Please DO NOT approve this plan.
