Comments: I oppose the project on Holland Lake, Mt. This would negatively affect this area with changes we don't welcome. The lake has a secluded beauty that will be lost with big changes like are proposed. The sheer volume of people that would bring to the area that have no regard for the impact this has on the locals would be devastating. Traffic, pollution, property taxes..., the list could be endless. We don't live here to be taken over by big corporations. I absolutely do not want this project to go through.
