Comments: Holland lake is perhaps one of the most peaceful and serene locations in Montana. We have been going there since we were children and very little has changed. Each year we spend as much time there as possible and cap off our season in September every year with a week long stay before the campground closes. My wife and I spent our honeymoon at Holland lake and one of our daughters used it as a backdrop for her engagement photos.

After all these years we still enjoy kyaking on the lake, hiking the area trails, and enjoying a peaceful time with family.

A project such as the one proposed would not only change the experince we have been fourtunate enough to enjoy but would forever alter the potential experience for future generations.

I am completely opposed to this project and feel it is a misuse of public lands and detrimental to the outdoor experience for so many people who currently enjoy the area.
