Comments: I oppose the development of the Holland Lake Lodge area. We are watching this all over the state, where big corporations are coming in and making changes to prestine areas in Montana. The best features about Montana is the fact that it's natural and reserved. People come to Montana to get away from the corporate ideals and ways. At the same time, you are running locals, who have generations of families, right out of the area. Property taxes increase, traffic and crime increases and this is not what we want for our Montana. This is a perfect example, right off the show Yellowstone. Theres a place for this kind of development here in Montana and it's Bozeman. They want it and this is where these corporate developers need to stay. Stay out of our quiet, low key, relaxing areas. PLEASE.
