Comments: My in laws own land up at Holland and I myself am a multi generation Montanan. I am sad to see the grandeur of the plans for the lodge. This area can not support this kind of traffic. I would like to see the environment impacts as well as impact to the surrounding wildlife. This is a quiet area enjoyed by so many and the public lands are used by so many. This project will alter who and how gets to use the public lands. I don't want to leave my children a trampled down, used up version of our beautiful state because out of state money saw fit to profit largely from it. The locals who live here year round and have for many years prior to this new scheme, will be greatly impacted and not in good ways. That small community can not support a project this large. I really hope you consider the far and wide effects of this. I hope you chose the many being affected over the few to profit. Montana doesn't need anymore of it beauty stolen by big money.
