First name: Kayla

Last name: Gorecki

Organization:

Title:

Comments: This is a private entity, from out of state that's wants to make a larger profit and cannot do so with the current size of the lodge. The average person cannot afford to stay at the lodge. This expansion would only benefit wealthy people and not the general public. This is a popular location for the general public wishing to camp and recreate on the water, hike and fish.

The current owner being present for the expansion is attempting to convince locals to accept the change. There is no guarantee the current local owner will stay involved after this is approved.

Please do not grant them access to expand.
