Comments: Please help preserve this amazing slice of Montana! We've seen firsthand what happened to West Glacier when Pursuit (aka Dial Soap Company) developed a campground and now has purchased almost every business/building in town! If we continue to lose our most treasured and beautiful places to the almighty dollar, what will be left for the next generations of Montanans?

It makes me incredibly sad to imagine the beauty of Holland Lake becoming a 'destination' for wealthy out of staters, and no room/availability for those of us who grew up in MT and still recreate here. Please do not allow corporate greed to continue to destroy the Last Best Place.
