Title:

Comments: I strongly object to this project as it would take away exactly what Holland Lake is all about. It would bring so many more people into the area to interfere with the peace and quiet that the area has always experienced. The lake would be full of people and noisy boats that would hurt the natural inhabitants of the lake and area. That big of a resort does not honor the land as it should be honored for us and all to come. Please do not let this project proceed.
