Comments: I am adamantly OPPOSED to the proposed development at Holland Lake. I have been hiking around and canoeing on Holland Lake for 25 years. The lake is such a gem -- an example of the rustic, undeveloped ethos that makes Montana unique. Please, please don't allow yet another place to be ruined by over-development and all of its attendant ills -- overcrowding, increased traffic and pollution, and the destruction of the local character of the place. What a shame this plan is even being considered.
