Comments: I am STRONGLY against this expansion project!! While I am in support of Holland Lake Lodge being renovated and upgraded, the extent of this project will adversely affect the surrounding nature and serenity of this valley. The increase in human traffic this will bring will have a negative impact and imprint that will detract from the magic this valley portrays. It will not only have a negative impact on the environment and serenity, but also on the wildlife that call this place home and add to their shrinking habitat.

Please please please do NOT allow this in our valley!!
