Title:

Comments: I am strongly against this development. A Missoula local, I cherish access to Holland lake. Privatizing our public lands for the financial gain of some out of state corporation is an act against the people of Montana. Keep public lands public! Further development will only serve to hinder access to portions of the lakeside, and for what? The only people/organization that stand to gain anything from this are the owners, and us local taxpayers are the ones who will lose out if this proposal is approved.
