Comments: Dear USFS, I oppose the Holland Lake Lodge Facility Improvement & Expansion project. The influx of use that would be a result of the expansion will negatively impact the natural landscape and wildlife habitats. POWDR has a track record of having no regard for maintaining a sense of place and does not belong in the back woods of Montana. Holland Lake Lodge plays an important role in the community; handing over this property to an out-of-state corporate entity would destroy the uniqueness and charm that it has maintained for so many years. Keep Holland Lake Lodge in the "Montana Family!"
