Comments: Please do not allow Holland lake to become more developed and commercialized. It's one of the few, last best places in Montana that is unspoiled by hotel rooms and a huge resort feel. It's hard enough now to get into the campgrounds... the out of staters are getting the sites.if this resort idea takes place, the lake will not be able to sustain the extra traffic. 3 or more boats really stir up the water and as more and more plants board are being used, that extra traffic could be dangerous. Go ahead and up grade the current buildings, big don't add more. We have used the group camp sites food of family reunion food the past 28 years and it would break out hearts to see the kind of development this plan proposes. Thanks.
