Comments: Holland Lake is a beautiful, wild and scenic area that benefits from limited commercial access. Increasing commercial access will negatively impact wildlife, the community, and the public's access to recreation. Powder Corp is a large-scale corporation that has already had detrimental impacts on the other communities in Oregon, Utah, and Colorado whose natural resources they exploit. The Seeley Lake area has smaller businesses that will be impacted by the development of this lodge as Powder Corp has the resources to undercut locally owned businesses. This development plan places corporate profit above the best interests of Montana.

I do not support the development of Holland Lake. I also believe that fast tracking the public comment period robs Montanans of engaging with this development plan.
