Comments: I would like to voice my opposition to this expansion. If this were private land, I would not have a problem with it, but since it's public land, I don't understand why this has to happen to benefit an out-of-state corporation at the expense of our wild lands. Also I'm very confused why the environmental studies are being waived and the comment period is truncated? And that the FS director from the Flathead said our comments are unlikely to matter? (I read that in the Missoula Currents article.)
