First name: Katrina

Last name: Woods

Organization:

Title:

Comments: I'm commenting in concerns that this new development will interfere with the eco system of the surrounding area...We Montanans cherish this area in Montana, being that it is secluded from all the tourism and keeps peace within these beautiful mountain ranges. Holland Lake has been a special place in my heart my entire life, the serenity it brings and the opportunities to explore all through the Bob Marshall Conolex is extraordinary. Please let's keep this area out last best place. We don't know more people littering this beautiful area.
