Comments: Please do not approve the Holland Lake expansion. Such a project will be detrimental to the lake and the surrounding woods. Holland Lake is valued because it's not a huge tourist trap development hellhole, and approving the expansion will ruin that experience for everyone. People go to Holland Lake to experience nature, not to experience a commercial resort environment that can had just about anywhere. Once it's developed there's no going back, and the place will be ruined for generations.
