Title:

Comments: To whom it should concern:

Of all the lakes in Swan Valley, Holland Lake should be preserved and kept undeveloped as much as possible. Its entire charm is the lack of development. Tourism is an important part of Montana's industry, but if we aren't careful; we will most definitely ruin the wonderful state. Also, capitalizing on nature's beauty creates areas in Montana that are inaccessible to residents due to crowds and affordability. Please consider the locals when considering this proposal. Thank you for your time.

Sincerely,

Amanda Lindstrom
