Comments: Hello,

Growing up in MT has been a true blessing, as it is not like anywhere else - there aren't billboards galore, no crazy traffic, no outrageous prices for family fun, etc. In fact, one of the best things about MT is that you can easily be in nature and enjoy it with people from walks of all life, without having nature ruined. After all, the wild of MT is what people enjoy.

A lot of people from other states don't understand that to maintain beauty, is to just let it be. This resort would ruin a lot of the natural beauty, the homes of many beautiful creatures, and the culture of MT.

This resort will ruin - NOT improve - so many things that people enjoy. We must preserve what is left of the natural beauty around us. Too often are people consumed by greed and are ready to destroy what they most desire. Please Do NOT build the resort. For the sake of everything beautiful, all of the creatures, and for our own good and culture, PLEASE DO NOT BUILD!
