Comments: Bad idea for the locals and the environment. This will become just another play ground for the ultra rich. Local business will be in jeopardy. Just look at Seeley Lake. Both motels were bought up by Paws Up, and now pass through tourist have nowhere to stay. That hurts all the business there. Big resorts dominating the local environment is not good. Locals who live there now won't be able to afford to live there tomorrow. But Big money always get it way.
