Title:

Comments: Please... please do not contribute to the downfall of our state's heritage. Montana has not kept up with salaries as the rest of our nation has experienced. We are willing to settle for lower salaries and limited buying power in exchange for being able to participate in Montanas wonders. By turning our heritage over to out-of-state organizations we are choking out native Montanans enjoyment of their own home. A project like this not only decreases our accessibility, it also brings in more out of state land buyers- driving up home/land values and making it impossible to make a Montana level wage and afford to live here. We must protect our heritage. Don't sell out to the Uber wealthy- all Montanans will suffer.
