Comments: Holland Lake is a prime example of the beauty of Montana. The lake, falls, and trail head into the the wilderness area would be greatly impacted in a negative way if large development is allowed to happen. The pristine beauty that makes the area special would be lost forever. People seek solitude and calm when they visit the area. To take this away would be shameful. My family has camped at the adjacent campground for many years. Developing the lodge into anything larger than it is will have a negative effect on the lake and it's ecosystem while also taking away the simple pleasure of spending time in the outdoors with family. Everything that we love about Holland Lake will be lost if the proposed development is approved. Please leave the beauty of this place alone.
