Comments: Your proposal to dramatically expand the Holland Lake Lodge is being promoted much too hastily, without adequate time for public comments and, most egregiously, without an EIS. Your claim that an EIS is not needed, based on your preliminary assessment, is way off base. While the 15 acre site will be the same, the density of buildings, the use of those buildings, and the number of people and staff visiting would be VASTLY INCREASED.

I love Holland lake, and while I understand repairs and facility upgrades are needed, this mega-proposal is not the answer. I love the closeness to wilderness and the unspoiled character of the lake. That is what is most threatened by your mega-proposal. At a minimum, you MUST produce an EIS and look at all of the impacts of your proposal, and what alternatives exist.

Thank you for your consideration.
