

Data Submitted (UTC 11): 9/12/2022 9:31:53 PM

First name: Maria

Last name: Pastore

Organization: Colorado Springs Utilities

Title:

Comments: Colorado Springs Utilities is familiar with the development and final documents of the Colorado Western Slope In-Lieu Fee Program established by the Army Corps of Engineers. We support the Forest Plan Amendment to include a forest-wide standard to the Water and Riparian Resources section that supports the Army Corps of Engineers requirement within the Colorado Western Slope In-Lieu Fee Final Program Instrument. We appreciate the time and efforts of the dedicated staff of the Forest Service, Army Corps of Engineers, and National Forest Foundation for the vision and implementation of this In-Lieu Fee Program.
