Comments: I object to the expansion proposed for the Holland Lake resort area.

The new owners have a reputation for totally ruining the uniqueness of the areas they've taken over as corporate recreation, all in the name of 'recreation'. More like 'wreck-creation'

We've never been able to snag a reservation to stay at Holland Lake. I look at that as a positive thing given the demand for accommodations being limited and therefore keeping the whole wilderness experience genuine. It is limited. It needs to be just that, limited. The Swan really cannot handle this proposal; increased human footprint, roads and traffic, emergency services and demand on everything (despite their 'green' declarations), etc.

Approving this development would be detrimental and an assault on our lands. Don't let this happen. We are not Eagle county. Thank you.
