Comments: I am concerned for this beautiful piece of land.

I am concerned that this large resort will ruin the serene beauty of Holland Lake. There will be noise and light pollution and an increase in traffic. How will the road be able to handle the influx of people? This will greatly impact the campground and homes on the lake.

The amount of people this resort is hoping to bring will make it difficult to hike the falls, kayak, swim or ski without running into people. People go to Holland to get away and enjoy peace and quiet and natural beauty.

I am concerned for the wildlife like loons and grizzlies.

I am concerned that the owner of the lodge does not have Montana's interests in mind. I personally have had encounters with him where he has been rude and ordered us to get off public lands. That is not what Montana needs.
