Comments: To whom it may concern;

Please consider NOT making the expansion articulated in the, 'Holland Lake Lodge Facility Improvement & Expansion'. Development, expansion and 'progress' do not equate to an improvement in the quality of life that we cherish in Montana. We need to preserve what few hidden gems we have left. Our hidden gems are being devoured by wealthy out of state interests that don't share our values. This project will most definitely impact infrastructure, wildlife, safety and community in a negative way. I glanced through comments - there are some 982 at this time. I didn't read them all, but I read well over 100, and NOT ONE that I read is in support of this proposal. PLEASE don't have this be a time where input is sought, but then ignored!
