Comments: To whom it may concern:

I lived all my life in big cities and I moved to Condon MT to retire and live in peace whatever amount of time I have left. I hate the idea this place gets overcrowded due to development and we start having traffic, crime and different problems like in many other places/big cities. Just few weeks ago 3 teenagers entered illegally in one of the cabins on my property. The first year I moved here I found 2 hunters on my property and fyi right now we do not have to deal with a lot of tourists or people out of town/state. My opinion is that we should try to protect this area as long as we can. Mass tourism can bring a lot of money but with that will come degradation of our beautiful pristine environment. So if my vote count something I want to let you know I am against any development of the Holland lake area (we live just 3-4 miles from the lake off of route 83)

Thanks for giving me the opportunity to express my opinion

Joe A
