Comments: We cannot continue to sell off Montana, making it nearly impossible for local families to recreate in the special spots we grew up going to as kids. There is already significant traffic on the dirt road and expanding the lodge at the end of the road will certainly increase traffic volume on the roads and of course on the lake.

Necessary renovations and code improvements for the current capacity I support but this proposal looks like a significant expansion in capacity and likely rates which will put it out of the reach of most locals. Oppose.
