First name: Rod

Last name: Foster

Organization:

Title:

Comments: No public comment can occur....so i guess it's left to us internet and outdoor keyboard warriors to implore you all to stop this nonsense. the impact will be felt for generations to come....human, habitat, AND wildlife generations will be negatively impacted as we humans gear towards the almighty inflated dollar tend to be short-sighted.

Save Holland Lake. Don't expand or destroy such a harmonious atmosphere. It's impact is already hurtful to the ecology of the area.

Rod Foster, IV
