Title:

Comments: As 20 year residents of the Swan and born and raised Montanans we implore you to stop this development which will not only ruin the Lake, but compromise the peace of the whole Valley! This proposed resort for profit isn't worth sacrificing one of the last REAL areas of Montana. Most of us who live here year round feel very betrayed with this unknown project until the last minute 3 weeks notice. Short notice because the Forest Service knew we wouldn't want it!
