Title:

Comments: This lake and it's surroundings are beautiful! Nature at it's best! Cutting down trees, creating new parking areas and creating a new lodge and buildings will negatively impact this area. Please do not allow this! Also, please inform the public about these changes. Seems that plans have been pushed through without the publics knowledge. Has a proper environmental impact study been accomplished? And, if so, where are the results of the study? Seems to be a lot of unanswered questions to benefit certain groups!

Thank You.
