Comments: Hello-

I wanted to submit a note in support of keeping Holland Lake in its current state and preventing any development. As a local Montana citizen who has had the privilege of spending time in Holland Lake, I believe it should be preserved in the beautiful way it is. It is sad to see our natural landscapes be changed by development throughout Montana as it is why many of us who were raised here have wanted to raise our children here. Please take this into consideration when making a decision on the future of this pristine Montana landmark.

Thank you,

Dustin
