Comments: To whom it may concern,

I would like to express my concerns over this project, and how it will impact our natural forests and wildlands.

This project, should it be completed, will be detrimental to our national forest in a way that cannot be undone.

Under no circumstances should this project continue on in any way. The public land that would be impacted by this monstrosity would have a deep effect on the community that recreates there on a daily basis. Please do not approve this project.
