Comments: To whom it may concern,

I have recently found out about this project on Holland Lake and am using this correspondence to plead against it. As a potential future resident, the draw to Montana is its natural beauty and disconnection from industry. I am asking that this project be re-reviewed in order for the full environmental impact to be documented and evaluated.

Please don't go the way of so many other states that have put industry and tourism dollars ahead of what made them special in the first. Please don't put your citizens at risk. Thank you.
