Title:

Comments: Please don't go through with the project. Areas where the average person can go for peaceful walks, hunting, fishing and hiking are slowly dwindling to accommodate those who have and want money. Please don't sell out our beautiful state to the rich. Please let the average people/citizens have peace and quiet since this lodge will bring in tons of traffic and people which will surely disrupt the peaceful and family atmosphere this area and state provide. It will also hurt the ecosystems and the wildlife around it. Please keep this area the way it is and allow our children and our children's children to experience peaceful and soul enriching activities without the noise and chaos. And please keep this area the way it is so our wildlife can have a wonderful home too.
