Comments: I come to visit Montana because it is one of the few places left in the U.S. that is pristine and in so many ways untouched. The splendor of natural beauty leaves one at a loss for words. Please do not allow greed and consumption to destroy such a spectacular place. How can you allow this to happen without a fair and timely period of rebuttal by those who will be so severely impacted by this awful corporate presence? Not to mention no environmental impact studies or the effects of such intrusion on Federal - that is, the People's land! There are few enough pristine places left. Please do not allow corporate greed to destroy another one.
