Title:

Comments: Good day, I have just heard that POWDR is about or have purchased the Holland Lake Lodge area, and I asking the Forest Service reject this bid or the purchase that was made by POWDR Corporation from the state of Utah. I have just purchased property in the city of Libby, not too long ago for a great many reasons what Montana has to offer to me and my family, and the rich history of keeping Montana the way it is. Please, reject POWDR Corporation from coming into this unique area of Montana, and say no to their building plans to change Montana forever. I have great respect for the Forest Service and the great people that work hard in your organization, and have supported them, even financially, for the love that your organization of keeping Montana the way it is. Please don't let this past by you, especially in a time when a great many people visit and come to live in Montana, for what it is: The Treasure State! Thank you.
