Title:

Comments: My wife and I were married at Holland Lake Lodge in 1989, and we all stayed 2 nights there, so this is a very special place to us.

I am not necessarily opposed to this development, as it seems to be reasonable, but I do have the following concerns:

This is nowhere near of a long enough comment period, and the project and comment period need to be better publicized.

Follow all the rules: this project should not get any exemptions or fast track.

Do an environmental impact assessment.

Cutting down a bunch of mature trees is always concerning.

Will this resort be open to the public? In recent years, Holland Lake Lodge has been inaccessible, except for the weddings, and the weddings have to book the entire facility for the entire weekend, leaving the lodge completely booked with no option to stay for a night or just come for dinner.

I hope this will not be a resort for only the rich and famous.
