Comments: I am not from the US or Montana but have visited several years as i have family owning property in Essex Mt. We have seen a lot of the US mostly Montana and we have been to Holland Lake and I can't believe this is happening. Help me to understand better this situation, but I think the one to blame for this shameful development is the family/landowner for even selling out in my opinion one of the best States ever. Shame on them for selling out MT for the money
