Title:

Comments: We are born and raised Montanan's and respectfully ask that you please do not approve this proposed project of developing our beloved Holland Lake into another high end Big Sky or Whitefish. As a family we have been going to Holland Lake for 40 years, it is still one of the areas locals can enjoy. This will ruin one of the best places in the state for those of us who don't have the resources to use high end developed areas. This will cause over crowding and deteriorate the quiet beauty of this small MT Lake. At the very least please do an extensive research project of the damages this will cause before considering approval.

Thank you

Jeanna Seymour
