First name: JERRY

Last name: SMITH

Organization:

Title:

Comments: The management of this resort has done everything possible in the last 20 years to alienate Montanans and cater to their preferred, wealthy, out-of-state clientele. This expansion will just expand this behavior and drive out local residents. It is becoming harder and harder to find affordable recreation areas in Montana and those that are affordable are overrun. A better option would be to expand the USFS campground into this area and send this corporation packing.
